Mont-St.-Michel

New tour combines world history and scenic cycling

In observance of the 60th D-Day anniversary, Euro-Bike & Walking Tours launches its "Normandy and Brittany Coast" bicycle tour in 2004. This vacation allows travelers ample time to visit the D-Day beaches, museums, war memorials and other tributes to "The Greatest Generation" and its contribution to world history.

Cyclists can also take their time to explore historic Mont St-Michel and the Bayeaux tapestry along this easy-going and awe-inspiring route. Sweeping coastal views, a string of seaside ports and resorts, as well as world famous seafood welcome visitors to this magnificent area. Opt for some fun in the sun on the beckoning sandy beaches or meander through the picturesque villages. This region offers a rare look at traditional France: In early times, during World War II and today.

Euro-Bike & Walking Tours has been leading active vacations in Europe since 1974. The company offers a full line of luxury cycling and walking vacations in 14 European countries, with additional specialty departures for family tours and private groups. Tours feature deluxe accommodations and gourmet meals. Trips range in length from six days to two weeks.

Euro-Bike & Walking Tours also offers Econo-Tours on some of our most popular vacations. These trips can result in significant savings for people looking for a slightly less luxurious vacation.
